FYT Series Theodolite

FUJIYAMA

FYT Series Theodolites

The Fujiyama FYT Theodolite range includes the FYT2, FYT5 and the FYT20 to offer you a choice of three levels of precision while allowing you to achieve the greatest added value for your situation. All three models have become instruments of choice where dependability and accuracy are demanded in tough situations.

All the instruments in the FYT Theodolite range are built with reliability, ease of use and ruggedness in mind and carry a full one-year guarantee. After sales support is provided by factory trained technicians operating from our fully equipped workshop in Kempton Park.

FYT series Theodolites come standard with rechargeable batteries but can be operated with pen light batteries (AA) in an emergency.

NOTE: Due to rapid developments in technology, specifications and appearance are subject to change without notice.
